**DATE: September 29, 2006**

**HEADLINE: Steven J. Baum, PC Switches to CaseAware™ Integrate**

**BODY:**

**St. Louis, MO -- (September 29, 2006)** - KMC Information Systems, L.C. ("KMCIS") announced today that its CaseAware™ Integrate system has been fully deployed into the production environment at Steven J. Baum, PC ("SJB"), a prominent northeastern Creditor's Rights law firm based in Amherst, NY. The CaseAware™ Integrate product provides an automated, two-way transmission of data between a law firm's Case Management/Accounting systems and the prevalent Default Services industry middleware platforms – NewTrak®, Lenstar® , VendorScape®, iClear®, NewInvoice®, and Countrywide®.

Christopher Yoder, SJB's Director of Information Technology, says this about KMCIS and its' CaseAware implementation team "The CaseAware team has proven itself very capable and helpful during this transition. Any question, concern or request has been answered and in most cases answered same day. The emphasis has been on what KMCIS can do to better serve us not what we can do to better accommodate them. KMCIS seems interested in customer satisfaction first and establishing a mutually beneficially long term partnership which has been refreshing."

Dan Cannon, COO of KMCIS stated "We are proud of the fact that the KMCIS implementation team was able to have CaseAware™ Integrate fully deployed in Baum's production environment in a few short weeks. As a result of our implementation, the firm is now able to more fully take advantage of integration features provided by the major middleware systems. Steven J. Baum's new processing environment will enable them to take great strides in resource and process optimizations.

Headquartered in suburban St. Louis Missouri, KMC Information Systems is a full-service Software Development and Consulting Company committed to implementing quality solutions for the Legal, Mortgage, and Title industries. KMC Information Systems' Professional Services group provides support for custom application development, system administration and support, and business process and technology consulting.
